

EFFICIENCY

It's not so much the thing we do,
But it's the way we do it,
That makes our work in life worth while,
And keeps us sticking to it.

The mental attitude we keep,
Above our daily grinding,
Lifts any ordinary task
Beyond the state of binding.

If carefully we lay the stones
Of truth and higher living,
We lose all thought of selfishness
Through joy of freely giving.

God speaks, but only those of us
Who know His voice can hear Him;
Yet underneath His yoke of love,
His children do not fear Him.

It's not so much the thing we do,
But it's the way we do it,
That makes our work in life worth while,
And keeps us sticking to it.
